Forecast For West Midlands
Issued by Met Office Exeter
at 1600 on Saturday 08 May 2021

++ Valid for broadcast between 1800 and 0600

Headline:
Sunday becoming drier after a damp start.

This Evening and Tonight:
Remaining breezy with showery outbreaks of light rain continuing throughout the evening between dry spells, these spells being lengthy for some. There may be the odd isolated heavier patch during the early hours. Milder than previous nights. Minimum temperature 9 deg C (48 deg F).

Sunday:
A murky and damp start as a band of light rain gradually clears eastwards through the morning. Brightening up thereafter with only the odd isolated shower. Clear spells by evening. Maximum temperature 17 deg C (63 deg F).

Outlook for Monday to Wednesday:
Nights become milder but remaining breezy and unsettled with sunny spells and showers throughout, perhaps merging into longer spells of rain at times. Turning rather chilly again by day.
